

**WILLIAM JENNINGS BRYAN,**  
Of Nebraska.  
FOR VICE-PRESIDENT  
ADLAI E. STEVENSON,  
of  
ILLINOIS.

**A REPUBLICAN VERSION.**

We heard a prominent citizen say today that Mr. Farrington is a very shrewd campaigner. Asked why he thought so, he made this reply:

"Mr. Farrington found that traveling with Tremor Coffin injured his chances of election and he threw him down a shaft at Pioche and broke one of his legs."

This, dear friends, is a Republican version of the Pioche accident and not a Democratic campaign lie.—Elko Independent.

Some years ago Mr. Coffin was on the Republican Central Committee as Treasurer and Secretary. After the campaign repeated demands were made on Coffin for an accounting of the disposition of the campaign funds but he treated the demands with a lofty scorn. Finally the committee got its back up and intimated that they would have an investigation, and then Coffin, seeing that they were in earnest, resigned and announced that he was going to leave the party forever.

This news gave such pleasure to the committee that further agitation relative to the whereabouts of the funds ceased.

He intimated that he proposed to join the Bryan and Sewall club in this city, but was advised not to do so as at least fifty members of the club said that their names would go off the roll if his went on.

This year found him back in the Republican party and it was intimated that he wanted his old place on the Central Committee handling the sack for the campaign. "Anything but that," said the party leaders, and so they gave him a Supreme Judgeship nomination to play with after it had been offered to half a dozen other men, who, regarding it as a gold brick, declined it with thanks.

Teddy Roosevelt has vigorously denied that he made this statement in one of his speeches:

Any man who engages in a strike or any man who goes where a strike is, should be shot.

Teddy's explanation is satisfactory, because no one would credit him with advising the shooting of strikers indiscriminately. Some of them might be Republicans. What Teddy evidently meant to say was that "any Democrat who engages in a strike or any Democrat who goes where a strike is on, should be shot, and I would like to do the shooting."—Silver State.

Teddy Roosevelt congratulated the Nebraska cattlemen the other day on the increase of their herds, due to McKinley's administration. Wonderful people these prosperity shouters and truly wonderful are their arguments. The administration makes the crops grow, the herds increase, the sunshine and the rain. God isn't in it at all.—Elko Independent.

The S. F. Call has discovered that a good many people are going to vote for Bryan in order that he may have one term of the Presidency, and so sicken the country of him that he may be shelved forever.

The Call is looking for a soft spot to fall on.

**THE PLATFORM**

We, the Silver men of Ormsby County, in Convention assembled, reaffirm the pledges made to the people of the County when in taking possession of the County government, we promised a reduction in the cost of maintaining the same.

At that time the County was in debt and doing business on a script basis, whereas, now it has a surplus of nearly \$20,000 in the treasury.

We reaffirm our loyalty to the business principles which have brought about this result and only ask the taxpayers to judge our course in the future by what we have done in the past.

We endorse the principles of free silver, anti-trust and anti-imperialism laid down in our State platform.

We pledge our legislative nominees to support a bill allowing the people of Carson to vote on the subject of the Municipal ownership of water, a bill which was beaten in the last legislature by the interference of outside counties on a purely local issue and we pledge the people of Ormsby that the Silver party will not give up the fight for cheaper water rates until the scheme of municipal ownership of water is an accomplished fact.

This convention also endorses the plank relative to the raising of the valuation of taxes and a corresponding lowering of rates in this State adopted by the State convention, in order that Nevada may stand better abroad and invite instead of repelling capital seeking investment, and pledge our legislative nominees to vote for these reforms.

We favor the election of a United States Senator by a direct vote of the people, and hold that all important questions relating to State interests should be submitted to the people for their approval or rejection.

We are in favor of fostering the public schools and pledge our legislative nominees, if elected, to oppose any reduction of the interest on school land contracts.
